In the better days of the republic the South furnished the larger part of the presidents, the members of the supreme court, the pleninotentiaries, and her statesmen in the upper and lower branches of the national congress shaped the legislation of the country. That was "the golden era of the republic." It looks as if history is going to repeat itself and the hands of the dial will again point to the South.

Here we come again, with some more "coals of fire." Ocala has been signally honored by the management of the Jamestown Exposition. which gives that city the opportunity for naming "ocala Day" at the fair, when, of course, its people will be expected to show up there in targe numbers and make the day a success. It was a graceful compliment to a mighty nice Florida city and we trust that Ocala will give it proper apprecialtion. It is an excellent opportunity to get a big ad and see a great show. - Live Oak Democrat.
